Leading Private Equity Firm Provides Financial Platform to Accelerate Company's Participation in Consumer Directed Healthcare

ORLANDO, FL – October 16, 2006 – Connexions, Inc. today announced that New Mountain Partners II, L.P., a private equity fund sponsored and managed by New Mountain Capital LLC, has made a significant equity investment in the company.

Over the past decade, Connexions has provided technology-based business solutions delivered from its proprietary customer data-driven platform for a long list of America's best-known companies, including Federal Express, Mercedes Benz and UnitedHealth Group. Earlier this year, the company established operations in North Carolina – its first expansion outside of Florida.

Through its Connexions Health operations, the company has leveraged its technological and Customer Relationship Management (CRM) capabilities to earn a leadership position in the rapidly emerging Consumer Driven Healthcare (CDH) movement in the United States.

Announcing the investment, New Mountain's Founder & CEO Steven Klinsky said, "In addition to its scalable business solutions and strong position within the healthcare industry, we are impressed with the excellent and longstanding client relationships Connexions has established. Our reference calls to Connexions clients confirmed that this company consistently delivers on its promise to provide clients with tangible enterprise-wide value. We believe Connexions is an outstanding business poised for continued significant growth, and we are proud to be partners with Jack LeFort and his team and to help build the business going forward."
